Air Conditioning & Heating

ENERGY-SAVING EFFICIENCY WITH GOODMAN

When properly matched and installed, your Goodman® brand DSXC18 Air Conditioner offers up to 18 SEER high-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners. The higher the SEER, the greater the efficiency — and the lower the operating cost. In many applications, the efficiency of your Goodman brand DSXC18 Air Conditioner can be enhanced by using it in conjunction with a Goodman brand gas furnace that includes a variable-speed blower motor. Talk to your Goodman dealer about opportunities to optimize the efficiency of your new unit.

COMFORT. SAVINGS. PERFORMANCE.

ENJOY THE COMFORT OF A GOODMAN BRAND AIR CONDITIONER

Beat the summer heat with a Goodman brand DSXC18 R-410A Air Conditioner — a unit that provides you with high efficiency, reliable performance and quiet operation. This air conditioner's worry-free operation and outstanding features add up to outstanding comfort and energy-saving value compared to lower SEER units.

EXPERIENCE QUIET COMFORT

You can be assured that your Goodman brand air conditioner will provide you with quiet cooling all year long. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially designed wire discharge grille. Additionally, the two-speed operation of the condenser fan motor allows your outdoor fan to run more often at a lower speed.

COMMITMENT TO QUALITY ENGINEERING

Always in pursuit of the highest performance and efficiency, our engineers are constantly evaluating the latest and most reliable technology and applying it to every Goodman brand air conditioner.

But best of all, your new air conditioner is compatible with the ComfortNet™ system of communicating products. With a large assortment of built-in features, your contractor can auto-configure, monitor and review data from the system. This allows for optimum performance and accurate detection of any system-related issue.

R-410A REFRIGERANT

Compared to the lower SEER R-22 refrigerant units, your new Goodman brand DSXC18 Air Conditioning System will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors.

IMPRESSIVE FEATURES AND BENEFITS: GOODMAN® BRAND DSXC18 R-410A HIGH-EFFICIENCY AIR CONDITIONER

- High-efficiency cooling performance
- ComfortNet™ Communicating Systems compatible
- Chlorine-free R-410A refrigerant
- Two-stage UltraTech™ Copeland® scroll compressor
- Expanded ComfortAlert™ diagnostics built in
- 5mm SmartCoil™ condenser coil in select models
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil
- High- and low-pressure switches
- Quiet operation ensured by:
 - A high-density foam compressor sound cover
 - Efficient condenser fan motor
 - A wire fan discharge grille
- Factory-installed, liquid line filter drier
- Factory-installed ambient temperature sensor
- Appliance-quality, post-paint finish resists the effects of weather and time
- Air Conditioning, Heating, and Refrigeration Institute (AHRI) certified; ETL listed
